CONTENTS

ACQUAINTANCE OF THE FOUNDER

Mr. Mohammed Shahabuddin is a renowned educationist, social worker and an eminent businessman who has the highest level of commitment towards social reforms and always engaged in alleviating sufferings of the people of any status of the society.

Mr. Mohammed Shahabuddin completed his graduation from National University, Bangladesh. Since his student life he observed with deep empathy the sufferings of the rural people and determined to alleviate the miseries specially related to disease and infirmity of the underprivileged uncared population of the country. He firmly believes that goal and excellence can be achieved not only by economic benefits and materials but requires skilled human resources and heartfelt sympathy.

The empathetic feelings to the suffering humanities, continuous engagements to humanitarian works and commitment to meet the needs of the society, shaped his mind and activities. The most sensitizing utterance of his mother in her dying bed expressing her desire to establish a Hospital for treatment of poor & distressed people of the country inspired him to establish SHAHABUDDIN MEDICAL COLLEGE & HOSPITAL. Till date he provided free treatment for above 3 lac poor patients through the hospital and organized free medical camps. The realization that Medical manpower development can keep the service uninterrupted was the drive to establish medical college which he founded overcoming challenges.

He also established and patronized many schools, madrasa charitable organization in his home district.

He always laid emphasis on punctuality, discipline and devotion to duty. His perseverance, honesty and sincerity have enabled him to become a notable businessman of the country. As recognition of his achievement and service in diversified sector of trade, he was awarded CIP record times by the Govt. of the People's Republic of Bangladesh.

Beside this organization, he is also the founder member of Nandiapara Degree College, Sonaimuri, Noakhali and also founder of Madrasa with Hefza Khana and Atim Khana in the name of his beloved mother Late Golapi Nessa in his village. He works with untiring zeal and magnanimity to achieve the objectives.

PROSPECTUS

Alhaj Mohammed. Shahabuddin
The Founder & Hon'able Chairman
Shahabuddin Medical College & Hospital

Message from the Desk of Dean

As the Dean of Faculty of Medicine of Dhaka University, it is my privilege to speak with confidence about our medical program. Our program is designed to develop students into competent practicing physicians. Currently, undergraduate medical education is passing through a transition period of adapting a new curriculum. Encouraging and promoting development of clinically, socially and culturally competent professionals, motivated to serve community with compassion and dedication is the ultimate goal of such. I strongly believe that the current curriculum reflects just some of the many ways in which creativity, compassion, and leadership qualities in prospective students can be attained. Our affiliated Medical Colleges are our partners in this endeavor.

Shahabuddin Medical College has been in the forefront of providing professional medical education in this country for the last 19 years. With dedicated and skilled faculty they had successfully complied with every endeavors of our university. With excellent infrastructure, library facilities and elaborate hospital to provide hands-on experience, this institution has been attracting numerous students from all around Bangladesh, as well as from many other countries of the world. The students who have graduated from this institution have been successfully practicing medicine in our country and overseas. Their graduates are pursuing higher education in increasing numbers, and is contributing in providing upgraded health care service of the country.

I hope that Shahabuddin Medical College will continue to provide the best to the students and to prepare them to take up the challenges of tomorrow, so that when they come out of the institution they are competent enough to handle the responsibilities of the medical profession in accordance with the prevailing standards of health care.

Dr. Shahryar Nabi
Dean, Faculty of Medicine
University of Dhaka

PROSPECTUS

MESSAGE FROM VICE CHAIRMAN

It is my immense pleasure to be a part of Shahabuddin Medical College & Hospital. Shahabuddin Medical College believes that the Hands that serve are Holier. I also believe that the service to the society through education results enrichment and enlightenment of the country. The medical institute is established to teach the medical students by a host of highly experienced faculties of national and international repute. The medical college is committed to prepare aspiring students to attain skills and qualities to meet the demand in the 21st century in the field of medicine.

Mrs. Shahina Akhter

Vice Chairman

&

Donor Member of the Governing Body
Shahabuddin Medical College & Hospital

PROSPECTUS

MESSAGE FROM FOUNDER MEMBER & MANAGING DIRECTOR

Welcome to Shahabuddin Medical College.

It gives me a great pleasure to welcome you, on behalf of Shahabuddin Medical College Management and Staffs. We invite you to discover how Shahabuddin Medical College is contributing in the world of objective to become a knowledge-based society by advancing our vision and mission to produce nationally and globally need based competent doctors to serve the sufferings of the world.

I feel privileged being the Managing Director of this Medical College. I still have the clean memories of the horrifying experiences during the days of our struggle to establish this college. There were many odds standing against our strong vision and determination of establishing a Medical College to produce competent manpower for the health sector as well as providing quality health services.

As the Managing Director of this Medical College, I make this personal assurance that the academic aspects, all comforts and safety of the students are our topmost priority. This college offers the best opportunity to aspiring students to fulfill their dream of getting world class education and training in health sciences.

We welcome all those committed students to our college who have dreams to become respected citizens of their country and smile from their heart when a life is saved. We hope this prospectus will provide required information address to your queries.

Faisal Al Islam

Managing Director & Founder Member
Shahabuddin Medical College & Hospital.

PROSPECTUS

MESSAGE FROM FOUNDER MEMBER & DEPUTY MANAGING DIRECTOR

Modern healthcare is evolving into preventive care, turning away from curative care by cultivating healthy lifestyle choices. As future healthcare professionals, you need to embrace this philosophy and commit yourself to the great profession of medicine. We encourage medical students with evidence based approaches and equip them with data driven tools to uphold the highest standards of patient care.

The SMCH MBBS program will provide vital pre-clinical training in our clinical setting and partnership with Government institutions and other institutions in Bangladesh. Our students achieve the highest success through self-learning and mentorship from their respective professors and lecturers throughout the program.

The journey to medicine for incoming medical students will bring opportunities for research, collaborations, and professional development in different medical science fields by their faculty members. We encourage our students to endure such opportunities and progress their careers by equipping them with analytical skills for developing as professional doctors.

Upon completing the 5 year MBBS program with the 1 year clinical internship, you will be an Alumnus of Dhaka University and achieve the medical degree under Dhaka University, approved by BM&DC and WHO.

We take pride in being an affiliated medical college of Dhaka University and providing the highest standards of medical education for international and local medical students in Bangladesh.

Fahad Al Islam, MHA
Deputy Managing Director
Shahabuddin Medical College & Hospital

PROSPECTUS

Message from PRINCIPAL

Shahabuddin Medical College started its journey in 2003-2004 after being approved by the Bangladesh Government, affiliated with Dhaka University and recognized by Bangladesh Medical and Dental Council (BMDC). Founder Chairman Mohammad Shahabuddin has a big dream to create a center of excellence in medical education and hospital management to alleviate the sufferings of mankind. From his mother's inspiration, he is always resolute to reach the target regardless of the nature of the challenges.

Since the beginning of this institution and during the different phases it passed, I had the opportunity to know some of the updates from time to time. Later on I got involved directly as a principal of this Medical College and have been contributing in different disciplines and functions of the institution. This has enabled me to have a good level of observations and sound insights about this Medical College and Hospital. In spite of many obstacles, we are working hard to take it to a much higher level. For that, cordial support from the Government is necessary.

We rigorously follow Govt. formulated Quality Assurance Scheme (QAS) for our Medical College. Our founders, faculties and staffs are most sincere in bringing qualitative changes in medical education and hospital environments. Since Shahabuddin Medical College's establishment in 2003 we have been committed to be a quality Medical College in Bangladesh. Institutional quality assurance body is led by academic coordinator and phase coordinators. Our deep attention in this regard is medical education and health care management systems which are advancing rapidly to reach the target. We are in the race of qualitative change of medical education and health care system of Bangladesh.

Shahabuddin Medical College is situated within the green and golden area of Gulshan-2, Dhaka city, near Gulshan Lake. New campus will open very soon at Gazipur chourasta, which may be considered the center of Bangladesh. Foreign students from different countries are coming here due to better Medical Education. Because the total academic environment here is better, just like a garden of flowers. We are working together in that garden to produce quality doctors for serving humanity in the country and all over the world. We are proud of them. I think that day is not far away when foreign patients of different countries will be coming to Bangladesh for better treatment.

PROSPECTUS

Prof. Dr. Md. Ruhul Amin
MBBS, M. Phil (D.U)
Principal
Shahabuddin Medical College

Message From Vice-Principal and Academic Coordinator

I welcome you all to the realm of medical science with open arms. You all have chosen a career path that will enable you to play the 'hand of god'. Every knowledge and skill you attain from now onwards will be aiding in saving life. This in its own merit is a privilege to serve humanity in such fashion. Shahabuddin medical college promises to accompany you in this journey to fulfil that responsibility with pleasure.

Our medical college have dedicated faculty to prepare you to achieve the goal you opted for. Our faculty members are continuously adapting to share wisdom according to global need. We are adapting every possible modern tool that can enable us higher level of understanding of medical science. Learning is always a subjective matter, which needs to be addressed individually. Our faculty members will assess every individual and show path accordingly.

Education is only way to combat social disparities. Doctors are also part of the society and should build themselves with attributes that other members of the society can follow. We are trying our best to produce humane doctor, not only just a doctor. We give especial emphasis on giving moral values to every student, so that they can develop human qualities.

Without partnership, medical education can't give us optimum results. Our college encourages parents' participation as well in their child's upbringing. Besides formal parents meeting, any parents can exchange views with designated faculty members throughout the year. Together we are determined to build a skilled medical professional with good moral character.

Prof. Dr. Khademul Azad
Vice-Principal
Shahabuddin Medical College

PROSPECTUS

- In case of illness or other unavoidable reasons of non attendance, written statement from the parent/guardian is to be presented to the teachers concerned who in turn will submit it to the Principal for approval.
- Students may inform their problems to the Secretary of College. The Secretary may refer the problems to the principal if can not dealt by him properly.
- Political activities are not permitted in the college and hospital premises.
- Pasting or hanging posters in the college and hospital premises are prohibited. These will be considered as punishable act of indiscipline.
- Smoking, use of Alcohol and narcotic drugs is strictly forbidden in the college campus.
- Obstructing normal functioning of the college and or the hospital are acts of gross indiscipline and students involved in such acts will be liable to be expelled from the college.
- All type of demonstrations, processions, shouting in the college and or the hospital premises are prohibited and students involved are liable to be expelled from the college.
- Student must not misbehave with the staff or employees of the college or the hospital. Acts of misbehavior are also acts of indiscipline and liable for punishment.
- Cost of loss, damage to college/hospital property is liable to be recovered from the student found responsible for the loss, damage.
- At the time of admission into the college, every student and their parents/guardians must sign a bond that their son/daughter/dependant will abide by the rules and regulations of the college.

Code of Medical Ethics

All medical students should follow the international code of Medical ethics. The oath of Hippocrates and Geneva declaration must be known to all students of Medical science.

The Oath of Hippocrates

- I swear by Apollo Physician and Asclepius and Hygieia and Panaceaia and all the gods and goddesses, making them my witnesses, that I will fulfill according to my ability and judgment this oath and this covenant:
- To hold him who has taught me this art as equal to my parents and to live my life in partnership with him, and if he is in need of money to give him a share of mine, and to regard his offspring as equal to my brothers in male lineage and to teach them this art—if they desire to learn it—without fee and covenant; to give a share of precepts and oral instruction and all the other learning to my sons and to the sons of him who has instructed me and to pupils who have signed the covenant and have taken an oath according to the medical law, but no one else.

- I will apply dietetic measures for the benefit of the sick according to my ability and judgment; I will keep them from harm and injustice.
- I will neither give a deadly drug to anybody who asked for it, nor will I make a suggestion to this effect. Similarly I will not give to a woman an abortive remedy. In purity and holiness I will guard my life and my art.
- I will not use the knife, not even on sufferers from stone, but will withdraw in favor of such men as are engaged in this work.
- Whatever houses I may visit, I will come for the benefit of the sick, remaining free of all intentional injustice, of all mischief and in particular of sexual relations with both female and male persons, be they free or slaves.
- What I may see or hear in the course of the treatment or even outside of the treatment in regard to the life of men, which on no account one must spread abroad, I will keep to myself, holding such things shameful to be spoken about.
- If I fulfill this oath and do not violate it, may it be granted to me to enjoy life and art, being honored with fame among all men for all time to come; if I transgress it and swear falsely, may the opposite of all this be my lot.

Declaration of Geneva

The world Medical Association revised the declaration in 2017, the following declaration which is intended to be sworn when a doctor starts medical profession :

- AS A MEMBER OF THE MEDICAL PROFESSION:
- I SOLEMNLY PLEDGE to dedicate my life to the service of humanity;
- THE HEALTH AND WELL-BEING OF MY PATIENT will be my first consideration;
- I WILL RESPECT the autonomy and dignity of my patient;
- I WILL MAINTAIN the utmost respect for human life;
- I WILL NOT PERMIT considerations of age, disease or disability, creed, ethnic origin, gender, nationality, political affiliation, race, sexual orientation, social standing or any other factor to intervene between my duty and my patient;
- I WILL RESPECT the secrets that are confided in me, even after the patient has died;
- I WILL PRACTICE my profession with conscience and dignity and in accordance with good medical practice;
- I WILL FOSTER the honour and noble traditions of the medical profession;
- I WILL GIVE to my teachers, colleagues, and students the respect and gratitude that is their due;
- I WILL SHARE my medical knowledge for the benefit of the patient and the advancement of healthcare;
- I WILL ATTEND TO my own health, well-being, and abilities in order to provide care of the highest standard;
- I WILL NOT USE my medical knowledge to violate human rights and civil liberties, even under threat;
- I MAKE THESE PROMISES solemnly, freely and upon my honour.

Contribution of SMCH in COVID-19 Pandemic

We feel proud to serve the COVID-19 patients during the pandemic started in 2019. In SMCH Corona Unit started working since June 2020. We have central oxygen supply delivery system extended to most of the wards in this five hundred bedded hospital. This Hospital is equipped with High flow nasal cannula (HFNC), Non invasive ventilator (NIV) and artificial ventilation facilities. Besides that we have latest medical equipments, skilled medical staff and nursing facilities. RT-PCR facilities is also available in this hospital.

During 1st Wave May 2020

Covid-19 Patients are being treated as per the national guidelines modified time to time. During the first wave of Covid-19, more than five hundred patients were admitted and treated in our hospital. Many were foreign nationals and were admitted and treated successfully. During the 1st phase only 12 patients died due to Covid-19 and its complications. Most of the patients recovered completely and went back to their as usual activities.

In the 2nd wave in 2021 three hundred seventy six severely affected patients were admitted in our hospital including some foreign nationals. During the 2nd wave only 11 patients expired due to Covid-19 and its complications.
